file. It separated from the file it must be
subjected to individual systematic review.

1. In acknowledging receipt of []'s report
on the lifting of the Berlin Blockade, we want to express grati-
fication at the well thought out and informative character of the
report itself and the interest that is inherent in some of the
conjectures which he raises.

2. We hope that [] will be able to make a later assess-
ment of the situation from the perspective of six or eight weeks,
and keep abreast of the situation. The developments in Berlin
are apt to have a quick reaction in the Soviet Zone and may be
reflected by various kinds of communist and communist-front activity.
